(Boiler cover commences three months after date of initial contract) Only boilers proven to be up to seven years of age will qualify and it is the responsibility of You, the customer, to provide proof of the actual installation date. Should a boiler be over seven years of age and parts be deemed obsolete by the boiler manufacturer or to be beyond economical repair, a loyalty discount will be applied to the cost of a new boiler supplied and installed by Us. This loyalty discount will be based on the number of years the Contract has been running and the number of Call-Outs You have on record.
- b. **Replacement Parts and Components** - will only be fitted where old ones are beyond reasonable repair. We will be the sole arbiter as to the condition of components.
- c. **Noisy boilers** - as boilers become older, for various reasons they may become noisy. Where age is the sole reason for noise, We do not consider this a fault and it is **not** covered under the Care Plan. A charge will be made for any recurring callouts relating to noisy systems, chargeable at Our current standard & weekend Call-Out Fees.
- d. We shall not be responsible for any repairs to which reasonable access cannot be gained and shall not be responsible for replacing floorboards, cupboards, carpets and decorations etc. which may require removal for access.

We will not be obliged to carry out a service outside of this period as breakdown calls will be given priority. All servicing work is carried out during normal working hours Monday to Friday. We reserve the right to charge an additional cost to the standard service rate including charges for additional consumables including system inhibitor.
